

FINE ARTS.

PROPOSED PLAN OF STUDY IN THE YALE SCHOOL.

Prof. D. Cady Eaton of the Yale School of Art has just printed a short brochure embodying his ideas as to the course to be adopted in that school. The pamphlet is marked by a singular brevity and reserve unusual in most academic compositions, and without attempting any exposition of the principles of Art, it indicates very forcibly the especial needs of American Art education and the means to be adopted to supply them. Mr. Eaton expresses the views so often urged in THE TRIBUNE of the most distinguished peculiarities of American artists: "Great natural capacity and disposition on the one hand, and equally great ignorance, or disregard of technique, on the other; Technique being understood to include all those practical parts of artistic education which should precede the study of composition. Correct anatomy in figure-painting is comparatively unknown. The long and patient study with the pencil, and its contents consist so largely of illustrated papers upon various subjects, that we know not whether to value it more highly as a journal of art than for its excellent literary qualities. Grave and gay, choice fiction, and well-considered essays upon social topics, follow each other, however, in such rapid succession that it is soon forgotten" as appears to us complete in monthly numbers, rather than upon the merits of any special department, that our judgment should be based.

From frequent perusal of this journal, our conclusion is that no other periodical embraces such a wide range of literature, science, and art, and so presents us as to call the interest of the less cultured, and excite the curiosity of intelligent minds."

SUBSCRIPTION PRICE: Weekly Issue, \$1 per annum; 10 cents per Number.

Monthly Issue, \$4 50 per annum.

Another Edition Just Ready.

WHAT I KNOW OF FARMING.

• • • KNOW • •

• • • OF • •

• • • FARMING. • •

One of the best books ever published upon the subject. It does not consist of a lot of dry, stiff, exacting precepts. It is written in a simple, lucid, and easy language, so that it can be understood as well as read. The author has given it a plain, direct, forcible style, and it is the most practical work upon the subject in the world, in my most agreeable manner.

Farmers will gather from it a great deal of valuable information, and the general reader will find it extremely interesting.

The Farmer will make and save thousands of dollars if he will only read and practice from this book, and other readers, chiefly young people, will be greatly interested in it. It is the most practical work upon the subject in the world, in my most agreeable manner.

If there is a paragraph in my pages which will not be read and fully understood by a average school of three years, then I have failed to make that paragraph as simple and as useful as intended.

I have avoided as far as possible, the use of terms and distinctions used in the general case.

The author has given it in the shortest and simplest manner, so that it may be easily understood by all. Those that do not understand it will find it in the most agreeable manner.

Farmers will gather from it a great deal of valuable information, and the general reader will find it extremely interesting.

The Farmer will make and save thousands of dollars if he will only read and practice from this book, and other readers, chiefly young people, will be greatly interested in it. It is the most practical work upon the subject in the world, in my most agreeable manner.

We don't think we need to say, "Mr. Grelley says." We need to say, "We know that what Mr. Grelley says is true." There is no better way to get a man to believe in you, than to let him see that you are right.

The author has given it a plain, direct, forcible style, and it is the most practical work upon the subject in the world, in my most agreeable manner.

If there is a paragraph in my pages which will not be read and fully understood by a average school of three years, then I have failed to make that paragraph as simple and as useful as intended.
